

A Sempra Energy utility®

ENERGY EFFICIENCY PROGRAM

CONNECT PROGRAM

PROGRAM OVERVIEW

The Connect Program has been developed to bring building-level gas analysis, energy efficiency project identification and incentive processing support services to SoCalGas® customers at no cost. The goal of the program is to better channel utility program resources and incentives to empower key market trusted advisors and identify efficiency opportunities on their behalf. The support includes:

- Benchmarked portfolio analyzing key gas metrics to assess energy performance and improvement potential
- Gas audits for properties with highest potential identified from portfolio benchmarking process
- Identification and processing support for utility incentives pursued by owners or tenants

BENEFITS & REQUIREMENTS

The benefits of the Connect Program include:

- **Increased property value** by implementing identified cost effective energy saving measures
- **Comprehensive gas audits** for qualified properties
- **Business case development** for all projects identified from audit including SoCalGas-offered incentives
- **Reduced administrative burden** when identifying and applying for incentives
- **Streamlined implementation processes** aligned to capital budgeting cycles
- **Platform for marketing** additional services to clients and tenants
- **No cost** to the customer for program participation
